LEATT 2026
LEATT 2026
LEATT 2026
LEATT 2026
LEATT 2026

The Velocity 5.5 lens are high performance goggles. They feature a bulletproof, permanent anti-fog, widevision lens, allowing you to look ahead without fear of roost or loose gravel. The lens uses a mirror coating to cut the glare and block more of the visible light. This makes it an exceptional choice for those midday rides - and adds that stylish Leatt finish to your riding gear. The Velocity 5.5 lens goggles have a tapered shape to fit helmets with tighter eye ports, with a Tear Off pack included for those muddy or dusty rides. All-day comfort is a guarantee with triple-layer comfort face foam and anti-sweat fleece backing. A self-draining open lower frame allows dirt to fall from the lens, and an OTG design accommodates prescription glasses.

GOGGLES

The Leatt goggle range provides clear vision and comprehensive eye protection for all riders. With numerous different models and striking designs, we cater to all riding disciplines. Choose from 2 different medically certified lenses: Velocity, a bulletproof, permanent anti-fog lens, or Vizion, a hard-coated anti-fog and anti-scratch lens. All goggles are designed for easy lens changes, have a comfortable, anti-sweat fleece backing, and are complete with anti-slip straps.

VELOCITY VS VIZION

Leatt has two types of Goggles Velocity & Vizion

All Leatt goggles are developed with OTG function and the lenses come in a variety of UV densities to suit different light conditions.

VELOCITY VS VIZION

Leatt has two types of Goggles Velocity & Vizion

All Leatt goggles are developed with OTG function and the lenses come in a variety of UV densities to suit different light conditions.

VELOCITY

Velocity 6.5, 5.5 and 4.5

Permanent anti-fog double lens | Enduro lens | Ventilated permanent anti-fog double lens

The Velocity 5.5 Enduro goggles are made for all-day wear. They are bulletproof with a WideVision design, allowing you to look ahead without fear of roost or loose gravel. These goggles feature a specially designed vented anti-fog lens for all-day comfort. The goggles have a tapered shape to fit helmets with tighter eye ports, with a Tear-Off pack included for those muddy or dusty rides. Long-ride comfort is a guarantee with triple-layer comfort face foam and anti-sweat fleece backing. A self-draining open lower frame allows dirt to fall from the lens, and an OTG design accommodates prescription glasses.

Permanent anti-fog double Lens | Iriz lens | Blocks more of the visible light using a mirror coating | Dual-layer, anti-sweat face foam | 40mm anti-slip coated strap

The Velocity 4.5 Iriz goggles are ideal for smaller helmets and junior riders, providing complete protection and clear vision. They feature a bulletproof, permanent anti-fog, WideVision lens, allowing you to look ahead without fear of roost or loose gravel. The Iriz lenses use a mirror coating to cut the glare and block more of the visible light. This makes it an exceptional choice for those midday rides - and adds that stylish Leatt finish to your riding gear. Comfort is guaranteed with the dual-layer, anti-sweat face foam. A self-draining open lower frame allows dirt to fall from the lens, and an OTG design accommodates prescription glasses.

LEATT 2026
LEATT 2026
LEATT 2026
LEATT 2026

The new Leatt Velocity 5.0 MTB goggle is specifically engineered to fit full face MTB helmets and offer great ventilation. It has specially designed vents in the goggle frame and lens which ensures amazing low speed ventilation.

This goggle features the Leatt RideVis lens. A three-layer laminated, anti-fog, bullet proof and anti-scratch lens which ensures you have clear vision and the best protection for your eyes, along with great looks and the perfect fit, all this at a price that won't break the bank!

MTB GOGGLES

The Leatt goggle range provides clear vision and comprehensive eye protection for all riders. With numerous different models and striking designs, we cater to all riding disciplines. Choose from 2 different medically certified lenses: Velocity, a bulletproof, permanent anti-fog lens, or Vizion, a hard-coated anti-fog and anti-scratch lens. All goggles are designed for easy lens changes, have a comfortable, anti-sweat fleece backing, and are complete with anti-slip straps.

VELOCITY ENDURO LENSES

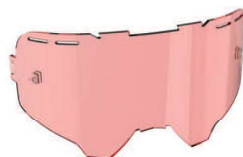

BULLETPROOF ANTI-FOG TEAR-OFF/ROLL-OFF READY WITH ENDURO VENTILATION

**CARRY
OVER**

Developed alongside Jonny Walker, these lenses are designed for extreme Enduro conditions. They are ventilated for long rides, made from 2,7mm bulletproof material with an anti-scratch coating. The lenses fit all Leatt goggles, and are available in different colors with various levels of Visible Light Transmission percentages (VLT).

VIZION LENS TECHNOLOGY

VIZION IRIZ LENS

- Iriz lens
- Blocks more visible light using a mirror coating
- Anti-fog coating
- Tear-off ready
- 22 to 78% light transmission (VLT)

VIZION LENS

- Anti-fog coating
- Tear-off ready
- 22 to 78% light transmission (VLT)

VIZION ROLL-OFF LENS

- Anti-fog coating
- Roll-off kit mounted on
- 22 to 78% light transmission (VLT)

VIZION LENS COMPARISON CHART

LOW LIGHT TRANSMISSION

Allow a minimal amount of light to go through the lens. Better use in very sunny and exposed environments

VIZION IRIZ BLUE
35 VLT

VIZION IRIZ SILVER
35 VLT

VIZION IRIZ GREEN
40 VLT

VIZION IRIZ RED
45 VLT

MODERATE LIGHT TRANSMISSION

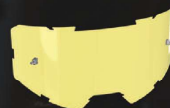

Allow a moderate amount of light to go through the lens. Better use in cloudy condition or in a forest covered environments

VIZION LIGHT GREY
50 VLT

VIZION ORANGE
60 VLT

VIZION YELLOW
75 VLT

EXCELLENT LIGHT TRANSMISSION

Allow a maximum amount of light to go through the lens. Better use in dark environments

Embrace the elements with the Velocity 4.5 Desert goggles, ideal for smaller helmets and junior riders. They are bulletproof with a WideVision, permanent anti-fog design, allowing you to look ahead without fear of roost or loose gravel. The key feature - and what makes these goggles perfect for desert riding - is the dust/sand blocking function built into the dual layer, anti-sweat face foam. A self-draining open lower frame allows dirt to fall from the lens, and an OTG design accommodates prescription glasses.

Goggle Case Velocity
8020003200

2026 LENS TECHNOLOGY

Our lenses offer versatile light management, with options for minimal light transmission ideal for very bright environments, moderate transmission suited for cloudy or shaded settings, and an adaptive feature that automatically adjusts to UV exposure, optimizing performance in varying light conditions such as dawn, dusk, or rapidly changing weather.

A person wearing MTB goggles, with the year 2026 repeated three times in large, outlined font across the image. The background is a warm, golden-yellow gradient, suggesting a sunset or sunrise. The person is wearing a dark blue or black shirt. The text '2026' is repeated three times in a large, outlined font, stacked vertically. At the bottom, the text 'MTB GOGGLES' is written in a smaller, outlined font.
